

7 October 1964

TO: Contracting Officer, SB-3662

SUBJECT: RESIDUAL MATERIAL AT COMPLETION

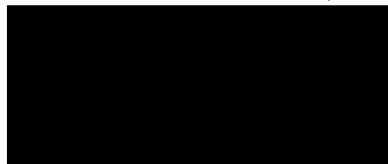

At completion of the work under Contract SB-3662, the following residual material was in our possession:

- a. One (1) each wooden forebody mockup known as the "A" mockup.  
(This was the A-12 cockpit mockup diverted from Contract DK-3559 and modified to the RS configuration.)
- b. One (1) each wooden forebody mockup known as the "B" mockup.  
(This was constructed entirely under Contract SB-3662).

In order that the property records may be reconciled and closure of the contract completed, we have transferred the above items to Contract HT-3664 pursuant to the authorization provided in Amendment No. 1 to SB-3662.

This information is furnished for your file to record that final accounting of all contract property has been made.

Very truly yours,

STATINTL
